## HOW DOES THIS CHARACTER TEACH PEOPLE ABOUT THIS CONDITION?

- Not everyone has heard of dyscalculia, the condition that Jubilee has. When a popular character has a condition that some people haven't heard of, many people will go on to learn new things about this condition. Also, people who have this condition will be able to see someone just like them. This is called representation, and it is important for both people with and without the condition!
- Jubilee struggles with school and numbers, but it doesn't hold her back. She is an important member of the X-Men and even sometimes teaches at their school.
